ABOUT LLOYD

Lloyd Group of Institutions, Widely Recognized as a Leading Educational Institution, Is Situated in a Futuristic Modern Township of Greater Noida in the Delhi Ncr Region. This Prestigious National Institution Boasts a Rich Academic Legacy of 23 Years, Offering Comprehensive Educational Programs in The Domains of Management, Law, Pharmacy, and Engineering Since its Establishment In 2003. From its Inception, The Institute has Maintained an Unwavering Commitment to The Pursuit of Excellence, Earning Acclaim Through A Multitude of Esteemed Awards and Fruitful Collaborations. At Lloyd Institute, Our Primary Focus Revolves Around Cultivating an Educational Environment That Seamlessly Integrates with Industry Practices, Equipping our Students with the Confidence and Enthusiasm Required to Navigate the Corporate
Landscape Successfully.

ABOUT LLOYD BUSINESS SCHOOL

Lloyd Business School, established in 2008, is driven by the philosophy of merging theoretical knowledge with practical applications to nurture highly skilled and employable professionals. It's a privately endowed co-educational institution, offers a two-year full-time Post-Graduate Diploma in Management (PGDM) approved by AICTE and the Ministry of HRD, Government of India.
The school's commitment to practical education is evident in its unique management specializations. These specializations incorporate industry expertise, such as Business Analytics in collaboration with IBM, Supply Chain Management in association with Safe Educate, BFS&I closely partnered with NSE Academy, and Human Resource Management designed in consultation with Manpower Group. The specialization in Entrepreneurship is a holistic course which combines theoretical learning in the form of the PGDM Entrepreneurship syllabus and practical training with the Lloyd Technology & Business Incubator (LTBI).

Lloyd Business School further enhances its graduates' employability by providing industry-oriented certifications, giving them a competitive edge in their careers. The institution actively engages in research and development, offering Management Development Programs, Faculty Development Programmes, and consulting projects that contribute significantly to industry and academia. Lloyd Business School's dedication to raising the standards of knowledge acquisition and dissemination reflects its belief that excellence and knowledge are boundless.

ABOUT THE CONFERENCE

International Conference on Innovative Practices for Sustainable Development will be organized from 26th March to 27th March 2027 at Lloyd Business School, Greater Noida, India. The conference is organized with the objective of bringing together innovative scientists, professors, research scholars, Government officials, students and industrial experts in the field of sustainable development to a common forum.

The scope of ICSD, 27 Conference is to provide a platform for researchers, engineers, Government officials, academicians as wel l as industrial professionals from all over the world to present their research results and development activities in various issues related to sustainable development. It allows participants an opportunity to discuss the recent developments in the field of sustainable development and review challenges faced by the government of different nations. Policy Implications sought to be analyzed.

AIM OF THE CONFERENCE

1. Create a common forum that brings together scientists, professors, research scholars, government officials, students, and industry experts working in the field of sustainable development.
2. Provide a global platform for researchers, engineers, policymakers, academicians, and industry professionals from around the world to present their research findings and development activities on sustainability-related issues.
3. Encourage discussion of recent developments in sustainable development, and promote the exchange of ideas, innovations, and best practices across disciplines.
4. Review the challenges faced by governments of different nations in pursuing sustainable development goals.
5. Analyze policy implications, so that research outcomes can be translated into practical, actionable guidance for policymakers and institution
