LLOYD BUSINESS SCHOOL

The Lloyd Business School was founded in 2004, guided by the philosophy of combining theoretical knowledge with practical applications in order to create skilled, highly trained and employable professionals. We are able to fulfill this mission by having a strong Industry connect. Located in a quiet and lush green campus spread over 10 acres in Knowledge Park – II, Greater Noida, Lloyd is an AICTE approved, co-educational, institute. We constantly strive to achieve its objectives of delivering quality education to students while ensuring their professional development through Professional Development Programs, On-job-Trainings, Corporate faculty and exposure to multiple industries & sectors with which the institute has intensive tie-ups.

The strength of the Institute is in the niche and highly industry-integrated courses that it offers in the field of management under the combined aegis of renowned faculty members and highly respected corporate professionals. The Institute's proximity to some of the country's leading corporate houses & organizations provides an edge of integrating the classroom knowledge with professional experience.

To provide better career opportunities & an edge to students, Lloyd Business School and Safeducate Learning Pvt. Ltd have come together to facilitate industry and academic cooperation between the parties and provide platform to students opting for PGDM in Supply Chain management.

PGDM-SCM programme runs in collaboration with Industry Partner Logistic Sector Skill Council of India and aims at making a student excel in Supply Chain Management and facilitate theoretical learning and the practical application of the same in highly competitive industry where skills define success. Lloyd's PGDM program designed to impart contemporary strategic and operational business knowledge to the students in line with industry trends. In pursuit of fulfilling this vision, Lloyd offers a unique 'Work & Learn Programme', which provides 'On-Job-Training' for educating our students about skills, knowledge, and competencies needed for employees to succeed within a corporate set-up as a part of the course.

This Work & Learn Model is the most distinguishing feature of the course enabling fresh graduates with work experience. Structured in conjunction with Logistic Sector Skill Council of India, our PGDM program incorporates a dynamic curriculum encompassing theoretical and practical knowledge of Operations, Logistics and synchronization of Demand & Supply in highly competitive market

About LSC India

Logistics Sector Skill Council, established by the Ministry of Skill Development and Entrepreneurship (MSDE) through National Skill Development Corporation of India (NSDC), has taken up a number of initiatives with the objective of creating adequate skills for gainful employment at various levels in Logistics Industry. The PG Diploma in Data Science for Logistics is one among the apprenticeship-based higher education programmes designed and offered by LSC in collaboration with he is all over the country.

LSC TAKES UP THE FOLLOWING RESPONSIBILITIES SO FAR AS PGD-DSL IS CONCERNED

- Curriculum Development and Continuous Improvement
- Sensitisation of Students on Apprenticeship Assignment
- Securing Apprenticeship Training (On-the-job Training) in Logistics Companies for all students of this programme under the provisions of Apprentices Act, 1961
- Securing a monthly stipend, as fixed by the Government from time to time, during the Apprenticeship Training period for every student.
- Assessing the performance & learning of students while in Apprenticeship
- Arrangement for conducting final placement drive for the students of this programme

The Supply Chain and Logistics Sector is Booming and Thriving Because

The Indian Logistics Industry has grown at a compound annual growth rate (CAGR) of more than 7.8% percent during the last 5 years paving way for innumerable career opportunities.

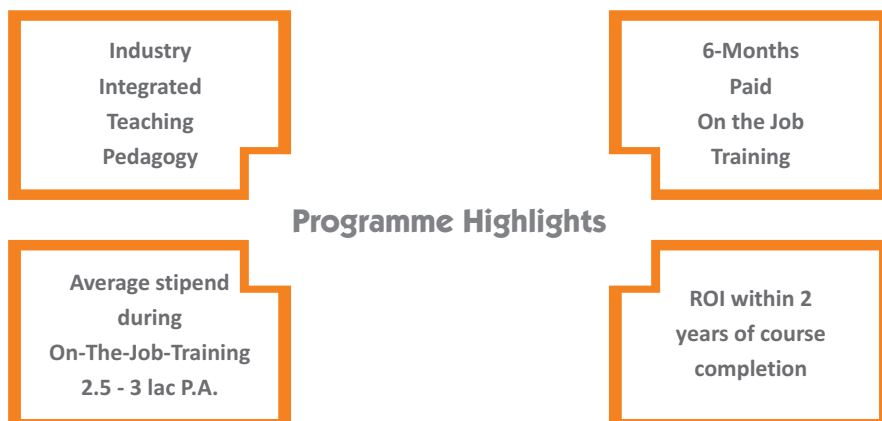

The Indian Supply Chain sector provides employment to over 22 million people.

Indian Logistics Industry will reach 215 US Billion Dollars by the year 2020-21.

Placement Opportunities for Supply Chain and Logistics Graduate
