## MESSAGE FROM OUR LEADERS

**Manohar Thairani**  
President

### *From His Desk :*

*"The essence of true education is not only to facilitate the students with tools to attain success in life but also to engrain values and skills in them."*

We, at Lloyd, work to incorporate the principles of modesty, compassion coupled with idea to effectuate innovation, growth and excellence. The curriculum of the program is industry oriented. Academic rigor is reflected in the course design and delivery of this program and I believe infusing technology into the management programme will create futuristic jobs.

Various pedagogic tools help our students develop not only a holistic business perspective but an ability to seize opportunities in a competitive business environment. At the same time they remain committed towards the betterment of the society.

LBS is supported by State of the Art Infrastructure and coupled with industry oriented curriculum based on real life practical training. Academic rigor is reflected in the course design, delivery of academics and dedicated team of faculty members, equipped with right mix of industry-academic-research experience.

Members of faculty are involved in their pursuit of developing and disseminating knowledge through teaching, research and consulting. Lloyd Business School welcomes you to join us to realize your full potential under our able guidance.

## MESSAGE FROM OUR LEADERS

### Prof (Dr.) Vandana Arora Sethi

Chief Strategy Officer &  
Head of Growth at Lloyd

### *From Her Desk :*

As technology continues to advance at a frenetic pace and world becomes increasingly unpredictable, there is change everywhere.

And not just change mandated by the AI & IT but change that Mother nature keeps challenging us with - floods, draughts, tsunamis and the deadly pandemics like Covid-19. During the 2 years of standstill of Covid, the vacuum cleaner salesman had no sales. He could neither visit his prospects, nor give them a demo. He analyzed this and worked out a plan. He connected his earlier buyers, interacted with them on FaceTime & based on trust relationship he had established with them sought their experiences and with their permission, stand these FaceTime conversations with his prospects. He needed new skills: mobile skills, tact, networking and confidence.

Skills not taught in the post graduate management program. More & more employers are moving beyond degrees and job titles to focus more on the skills the changing business environment needs.

So perhaps this is the time to redress this short coming with a new look at one B-School environment and incorporate technology-based education.

Lloyd Business School is fully prepared for opportunities that the 4<sup>th</sup> Industrial Revolution is offering which emphasizes the interconnections of machines & systems to achieve optimal performance & productivity gains, which is the aim of any business.

Industrial revolution 5.0 is said to take it a step further. By this, fine tuning is created b/w human & machines, a collaboration b/w automated technology's ultra-fast accuracy and human's intelligence & creativity.

**PGDM-5.0 at Lloyd Business School** focuses on use of modern cutting edge technologies like **AI, IoT, Big Data, Cloud Computing, Block Chain, Digital twins** along with training the management students with leveraging human creativity & intelligence.

*Preparing you not only for today but ensuring a futuristic career for you as well. I extend a warm welcome to all management aspirants for admission 2025. May the best ones get selected at Lloyd!*

## MESSAGE FROM OUR LEADERS

### *From His Desk :*

At Lloyd Business School, we believe that management education is not merely about acquiring a degree, but about developing the mindset, skills, and values required to lead in a dynamic global business environment. Our PGDM program is designed to nurture future-ready professionals who can think critically, act ethically, and adapt confidently to change.

In today's fast-evolving world, organizations seek leaders who combine strong conceptual knowledge with practical exposure. At Lloyd Business School, we emphasize an industry-integrated curriculum, experiential learning, and continuous interaction with corporate leaders. Through case studies, live projects, internships, simulations, and workshops, our students gain hands-on experience that bridges the gap between theory and practice.

We are committed to holistic development. Along with academic excellence, we focus on communication skills, leadership qualities, teamwork, and emotional intelligence. Our dedicated faculty members bring rich academic and industry experience, ensuring that students receive mentoring, guidance, and real-world insights throughout their journey.

Ethics, social responsibility, and sustainability form the foundation of our teaching philosophy. We strive to instill integrity, professionalism, and a sense of responsibility toward society in every student. Our vibrant campus culture encourages innovation, diversity of thought, and lifelong learning.

I warmly invite aspiring managers to join Lloyd Business School and become part of a learning ecosystem that challenges you to grow, inspires you to excel, and prepares you to create meaningful impact in the business world. Together, let us shape leaders who are not only successful professionals but also responsible global citizens.

## TRIDENT INFORMATION SYSTEMS PVT LTD

With the intent to help the PGDM students/budding managers to upskill themselves in a techno-functional role which is the need of the hour, Lloyd has initiated an association with Trident Transform System for technology oriented training module.

We propose to deploy a "HTD" model which is the Hire-Train-Deploy model, where in students of PGDM are exposed to training by Trident on skills which they can harness for a employable opportunity within the organisation.

The intent is to help develop resources customised for company requirements through a focused training approach to make them skill proficient and competent for industry roles reducing the gap the student takes to accommodate in to industry jobs and ascertain faster productivity at workplace.

### Through the MOU the following has been proposed :

Set up Corporate Hub for Trident in association with the College for Looking forward to a knowledge and skill based intervention for upskilling the students at Lloyd by Industry mentors like Trident Technologies who have acted as pillars of light for students graduating from Lloyd.

- Placement Support
- Technology Training
- Train the Trainers
- Hackathon and coding Events
- Corporate Connect and Recruitments
- Industry Institute Interaction

Considering that the students from Management are an impetus for vibrant minds with energetic ideas, we at Lloyd have always believed that Industry 5.0 requires a skill set which is technologically oriented towards addressing dynamic markets for innovative solutions.

Setting the aforesaid as the backbone of liaisoning Lloyd has entered in to a Industrial collaboration for Centre of Excellence in Microsoft Dynamics 365 for students of PGDM-BFSI and SCM.

The company would be providing training support and placement opportunities after the conclusion of the industrial training so that students can perform ERP skill set in their very 2nd year of PGDM in a niche skill set.
