

INTERNATIONAL CONFERENCE ON CONTEMPORARY ISSUES IN MANAGEMENT (ICCIM)-2024

Theme: Fostering Universal Oneness: Technology, Innovations, Entrepreneurship, Management and Sustainable Development

8th - 9th March 2024

Associate Partners

LLOYD BUSINESS SCHOOL
Plot No. 11, Knowledge Park-II, Greater Noida, Uttar Pradesh, India- 201306

ABOUT LLOYD

Lloyd Group of Institutions, widely recognized as a leading educational institution, is situated in a futuristic modern township of Greater Noida in the Delhi NCR region. This prestigious national institution boasts a rich academic legacy of 19 years, offering comprehensive educational programs in the domains of Management, Law, Pharmacy, and Engineering since its establishment in 2003. From its inception, the institute has maintained an unwavering commitment to the pursuit of excellence, earning acclaim through a multitude of esteemed awards and fruitful collaborations. At Lloyd Institute, our primary focus revolves around cultivating an educational environment that seamlessly integrates with industry practices, equipping our students with the confidence and enthusiasm required to navigate the corporate landscape successfully.

ABOUT LLOYD BUSINESS SCHOOL

Lloyd Business School, established in 2008, is driven by the philosophy of merging theoretical knowledge with practical applications to nurture highly skilled and employable professionals. It's a privately endowed co-educational institution, offers a two-year full-time Post-Graduate Diploma in Management (PGDM) approved by AICTE and the Ministry of HRD, Government of India.

The school's commitment to practical education is evident in its unique management specializations. These specializations incorporate industry expertise, such as Business Analytics in collaboration with IBM, Supply Chain Management in association with SafeEducat, BFS&I closely partnered with NSE Academy, and Human Resource Management designed in consultation with ManpowerGroup.

Lloyd Business School further enhances its graduates' employability by providing industry-oriented certifications, giving them a competitive edge in their careers. The institution actively engages in research and development, offering Management Development Programs, Faculty Development Programmes, and consulting projects that contribute significantly to industry and academia. Lloyd Business School's dedication to raising the standards of knowledge acquisition and dissemination reflects its belief that excellence and knowledge are boundless.

ABOUT THE CONFERENCE

Every Year, Lloyd Business School in Greater Noida, in collaboration with its partner institutions, proudly hosts the annual International Conference on Contemporary Issues in Management (ICCIM). ICCIM invites professionals, academicians, research scholars, and students to submit their research papers and business management cases. The conference aims to stimulate discussions and explore novel perspectives on technology and business transformations. By doing so, it seeks to contribute to the advancement of knowledge in these critical areas and promote a sense of universal interconnectedness.

The ICCIM aims to bridge the gap between theory and practice in today's rapidly changing business landscape. It provides a platform to explore current concerns and innovations in management across borders and industries.

The 3rd ICCIM, themed "Fostering Universal Oneness: Technology, Innovations, Entrepreneurship, Management, and Sustainable Development," will be held on March 9, 2024, in Greater Noida, India. It welcomes research papers and business management cases to encourage fresh thinking on technology and business transformations. This conference aims to contribute to knowledge advancement and promote interconnectedness in the global community.

ABOUT CONFERENCE THEME 2024

The "Fostering Universal Oneness: Technology, Innovations, Entrepreneurship, Management, and Sustainable Development" conference is a prominent global platform that underscores the significance of interconnectedness and unity in addressing critical global issues. By bringing together experts, scholars, innovators, and thought leaders from diverse fields, including technology, innovation, entrepreneurship, management, and sustainable development, this conference serves as a catalyst for innovative solutions that transcend traditional boundaries. Notably, the conference also recognises the importance of G20 summits in shaping global policies and priorities, and it aligns with the overarching goals of these influential gatherings. With a focus on universal oneness, this conference seeks to inspire solutions that are not only technologically advanced but also socially responsible and environmentally sustainable. Participants will have the opportunity to delve into topics such as ethical entrepreneurship, inclusive innovation, and management strategies that prioritise the well-being of both humanity and the planet. By weaving together these diverse threads of thought and action, the conference seeks to contribute meaningfully to the broader dialogue on global unity and sustainable development, aligning with the principles and objectives discussed at G20 summits. This conference aims to catalyse a new era of holistic thinking that drives positive change and contributes to a more interconnected and harmonious world.

CONFERENCE TRACKS

TRACKS

01

Engineering, Technology and Sustainable Development

- Innovations Driven Sustainable Strategies
- Technological Innovations and Change Management
- Sustainable Engineering Solutions for Global Challenges
- Technological Advances for Environmental Conservation
- Green Technologies for Sustainability
- Digitalization and Sustainable Practices
- AI and Analytics for Sustainable Decision-Making
- Technological innovations for monitoring and preserving natural resources
- Engineering solutions for affordable and clean energy access.

TRACKS

02

Design Thinking

- Human -Centric Design and Inclusive Innovations
- Leveraging Design Thinking for Global Accessibility
- Design Thinking to Bridge Digital Divides
- Design Thinking for Sustainable Solutions
- Education and EdTech Solutions
- Design Thinking Applications in Government and Public Policy
- Applying Design Thinking to Business Challenges
- Case Studies of Successful Design-Driven Businesses

TRACKS

03

Ethical Leadership & Governance

- Tech Ethics in a Diverse World
- Corporate Social Responsibility Across Borders
- Responsible Tech Innovation for Humanity
